Since the creation of MEIDJO we are always at your disposal. You have made comments and suggested several ideas for improvement or made requests for new features. We have studied everything and analyzed your messages in detail. After a long period of work during which we calculated, designed, prototyped and tested even more innovative solutions, we approach perfection. The result of this work is the integration of 10 new parts. Based on our tests we can assure you that MEIDJO 2.1 is the best telemark binding ever produced. Even easier to use, more reliable and still the lightest, it will bring you even more pleasure in your telemark.

- Specific lowtech developed for telemark with springs twice powerful
- The step in system that simplifies the way you put on your skis
- The adjustable safety that will allow you to take off in case of a fall (1st time in the world)
- A touring mode with free pivot and free heel
- The possibility to integrate the ResQski to find your skis lost in powder
- New locking system of the touring mode
- Integration of the Easystep In system into the jaws (CNC machining)
- New crimped tips on the jaws incorporating ice-sized footprints
- Springs even more longer for even more flexibility
- A simplified mounting

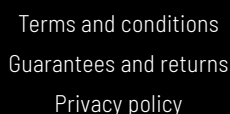

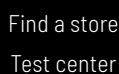

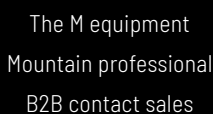

- Weight: 840 grams per pair
- Climbing aids: shim of 7° and 13°
- Screw width: 45 mm
- Bootsole-ski distance: 20mm

- Anti Snow Pack (ASP)
- Winged heel
- Improvement of the base plate
- Improvement of the touring plate ensuring a perfect lock
- Integration of subtle improvements of the spring box

- 2 MEIDJO 2.1 bindings
- 4 additional tension springs
- Screws needed to mount the bindings
- 1 adjustment allen key
- 2 transparent drilling pattern
- The instructions for use

RED LINE SPRING

30 to 40% more stiff than the current springs, the Red line springs will enable you to discover more active and powerful sensations.

MORE INFO

SKI BRAKES

MEIDJO skibrakes will facilitate the usage of telemark and secure your practice. You'll never lose your skis during a line.

MORE INFO

CRAMPON INTERFACE

Can be used with standard crampon. The telemark touring will have never been more secure than with MEIDJO.

MORE INFO

ALPINE HEEL

Alpin heelset for Meidjo telemark binding is dedicated to ski patroller and ski instructor who must ski in alpin mode while they're doing their job.
