1. Are the added specifications supposed to be visible after saving?

The image shows a user interface for a 'SPECIFICATIONS' form. The form is contained within a light gray box with a title bar at the top. The title bar contains the word 'SPECIFICATIONS' in a bold, sans-serif font. Below the title bar, there are four main sections, each with a label on the left and a corresponding input field on the right:

- Characteristics:** The input field contains the text 'Name' and a blue plus sign (+) on the right side.
- Related products:** The input field is empty.
- Options:** The input field contains the text 'Available in both Essential and Business editions' in a small, italicized, purple font.
- Bundled products:** The input field contains the text 'Available in both Essential and Business editions' in a small, italicized, purple font.

To the right of the main form box, there is a vertical sidebar or scroll bar area, which is partially visible and appears to be a light gray color.

2. Where is the variant tab? I cannot see it anywhere?

2. Where is the variant tab? Cannot see in on the product page? The doco implies to me that it should be on the product page. Is it elsewhere?
