NBePay Installation For Joomla (Virtuemart)

ReadMe v2.3

NetBuilder (M) Sdn. Bhd. is not responsible for any problems that might arise from the use of this module. Use at your own risk. Backup any critical data before proceeding. For any query or assistance, please email support@netbuilder.com.my

1. Extract nbepay.zip under **joomla_doc_root/administrator/component**
2. You need to CHMOD the following files to 700
`joomla_doc_root/administrator/components/com_virtuemart/classes/payment/ ps_nbepay.cfg.php`
`joomla_doc_root/administrator/components/com_virtuemart/classes/payment/ ps_nbepay.php`
`joomla_doc_root/administrator/components/com_virtuemart/nbepay_notify.php`

***** NOTE**

The **ps_nbepay.cfg.php** acts as the file which stores the constant values of your NBePay account.

The **ps_nbepay.php** contains the actual source code that makes this module work.

The **nbepay_notify.php** contains the order verification values that will be passed back to your Virtuemart installation after the completion of the payment.

3. Login to Joomla administration panel
4. Click on Components > Virtuemart
5. Click on Store > Add Payment Methods

6. Click on the “**General**” Tab and enter the following details as seen below. Click on **Apply**.

Payment Method Form	Configuration
Active ?: <input checked="" type="checkbox"/>	
Payment Method Name: NBaPay (Visa & MasterCard)	
Code: NBEPA	
Payment class name: ps_nbepay 	
Payment method type: <input type="radio"/> Credit Card <input type="radio"/> Use Payment Processor <input type="radio"/> Bank debit <input type="radio"/> Address only / Cash on Delivery <input checked="" type="radio"/> HTML-Form based (e.g. PayPal)	
Shopper Group: -default- 	
Discount: 0.00 	
Discount Type: <input type="radio"/> Percentage  <input checked="" type="radio"/> Total	
Maximum discount amount: 0.00	
Minimum discount amount: 0.00	
List Order: 1	

7. Click on the “**Configuration**” Tab

Payment Method Form	Configuration
NBepay Merchant ID <input type="text"/> Your NBepay Merchant id	
NBepay Secret Word / Verify Key <input type="text"/> Your Verify Key for NBepay. Makes the transactions more secure.	
NBepay Multiple Return URL <input type="text"/> Provide complete URL if u wish to have Multiple Return URL for NBaPay Module. (E.g : http://www.yourdomain.com.my/returnurl.php). Keep the field blank if you dont want to have this feature.	
Order Status for successful transactions	<input type="text" value="Confirmed"/> Select the order status to which the actual order is set, if the NBepay transaction was successful. If using download selling options: select the status which enables the download (then the customer is instantly notified about the download via e-mail).
Order Status for failed transactions	<input type="text" value="Pending"/> Select an order status for failed NBepay transactions.
Merchant Notifications	<input type="text" value="No"/> Should NBepay e-mail a receipt to the store owner?
Merchant Email	<input type="text"/> Which email account will receive the notifications ?
Payment Extra Info: 	
<div style="border: 1px solid #ccc; height: 150px;"></div>	

8. Enter your NBePay Merchant ID into the top field. Refer to your NBePay account for the NBePay Secret Word/Verify Key. If you like to have multiple return url features on NBePay, please fill in return url for this module into NBePay Multiple Return URL field and ignore step no.13 on this readme file.

9. Copy and paste the following code snippet into the “Payment Extra Info” field

```
<?php
$q = $user->country;
$country = $ccode3[$q];
while(list($k,$v)=@each($ccode3)){
    if ($k == $q){
        $country = $v;
    }
}
while(list($k,$v)=@each($ccode)){
    if ($v == $country){
        $code = $k;
    }
}
$address = $user->address_1."&#10;". $user->address_2."&#10;";
$address.= $user->city."&#10;". $user->state;
$bill_name = $user->first_name;
$bill_name.= $user->middle_name." ". $user->last_name;
$bill_desc = "Bill Name : " . $bill_name. "n";
$bill_desc.= "Order No : " . $db->f("order_id");
$amount = $db->f("order_total");
$orderID = $db->f("order_id");
$vcode = md5($amount.NBEPAY_LOGIN.$orderID.NBEPAY_SECRETWORD);
?>
<form action="https://www.onlinepayment.com.my/NBepay/pay/<?php echo NBEPAY_LOGIN?>/"
method="post">
<input type="hidden" name="orderid" value="<?php echo $db->f("order_id") ?>" />
<input type="hidden" name="amount" value="<?php echo $db->f("order_total") ?>" />
<input type="hidden" name="currency" value="<?php echo $_SESSION['vendor_currency'] ?>" />
<input type="hidden" name="bill_desc" value=" <?php echo $bill_desc; ?>" />
<input type="hidden" name="bill_email" value="<?php echo $user->email?>" />
<input type="hidden" name="address" value="<?php echo $address; ?>" />
<input type="hidden" name="bill_name" value="<?php echo $bill_name; ?>" />
<input type="hidden" name="country" value="<?php echo $code; ?>" />
<input type="hidden" name="postcode" value="<?php echo $user->zip?>" />
<input type="hidden" name="bill_mobile" value="<?php echo $user->phone_1?>" />
<input type="hidden" name="returnurl" value="<?php echo NBEPAY_MULURL?>" />
<input type="hidden" name="vcode" value="<?php echo $vcode; ?>" />
<p><b>Click on the Image below to pay</b></p>
<input type="image" name="submit" src="http://www.netbuilder.com.my/html/images/logo_click_pay.png"
title="Click here to proceed to payment page" />
</form>
```

10. Click on Save

11. Now, access your NBePay merchant account using the loginID and password provided to you.

12. Click on the "Merchant Profile" tab above.

13. In the Return URL field enter the following URL:

[http:// yourstore.com.my/administrator/components/com_virtuemart/nbepay_notify.php](http://yourstore.com.my/administrator/components/com_virtuemart/nbepay_notify.php)

for example, in the Netbuilder test site, <http://joomla.netbuilder.biz>, we used the following return URL:

http://joomla.netbuilder.biz/administrator/components/com_virtuemart/nbepay_notify.php

14. Click on "**Update**"

15. You are done!

*** For security reasons, you should try to CHMOD the following files back to 644
joomla_doc_root/administrator/components/com_virtuemart/classes/payment/ **ps_nbepay.cfg.php**
joomla_doc_root/administrator/components/com_virtuemart/classes/payment/ **ps_nbepay.php**
joomla_doc_root/administrator/components/com_virtuemart/**nbepay_notify.php**

If accessing problems persists, try to CHOWN the files to the local owner.

*** Can refer to these URL for the Predefined Global Variables using in VirtueMart :
